Line of Dance

Line of Dance prevents collisions by establishing a predictable traffic flow around the dance floor.

Always progress counterclockwise

Outside lane - fast progressive dancing

Inside lane - slow progressive dancing

Center of dance floor - conversation, practice, and non-progressive dancing, such as swing and rumba.

Though it is not illegal to violate these guidelines, it is certainly rude. Dancing slowly or in place near the edge of the dance floor imposes barriers and forces progressive dancers either to stop or detour. Those who dance progressively through the center of the floor endanger those who are following the guidelines.

Polite dancers always follow Line of Dance guidelines.
